WHAT IS OLD AGE?

Some Younger at 65 Than Others Are at 40 Years

Old age is not marked by years, but by the stiffened frame, the hardened tissues and arteries. So many people whom you meet about the time they reach 40 begin by saying: "I can't do this, and I can't do that, because I'm getting old now," they begin to act old, feel old, and they are older in appearance than many who are much more advanced in years.

When you begin to feel old, when your energy begins to fail, build yourself up with our delicious cod liver and iron tonic, Vinol. It is a wonderful blood-maker and strengthener.

H. C. Klyce of Corinth, Miss., says: "I am 75 years old and my blood was very poor. I was in a run-down condition and felt that I must have a tonic. Vinol was recommended, and it built up my strength until I felt as strong and well as ever."

Thousands of old people have found in Vinol just the medicine they need to build up the feeble, weakened system and create strength. If it fails, we return your money. Red Cross Pharmacy, Floyd G. Russell, Barre, Vt.

GRANDMA NEVER LET HER HAIR GET GRAY

Kept Her Locks Youthful, Dark, Glossy and Thick With Common Garden Sage and Sulphur

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone, and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger.—Adv.

BETHEL

Mrs. Harold P. Perkins held Prisoner by Overtaken Woodpile.

Mrs. Harold P. Perkins went down cellar at 11:45 a. m. yesterday to get some kindling wood and carried with her little Barbara, her year-old child, whom she set upon the lowest step of the cellar stairs. As she reached for the wood pile collapsed and immediately she found herself down on the cement floor with the wood all about her. She was pinned down so that escape was impossible. She tried in vain at frequent intervals to attract the attention of neighbors and passersby, the baby also doing her full share, but for more than 90 minutes she was held in her strange prison. Then her husband came home late from the bank where he is employed and was horrified at the sight of his wife and child. They were very cold and Mrs. Perkins was much bruised and lamed by the wood. Dr. O. V. Greene was called and expressed his belief that neither mother nor child would be seriously affected beyond the inevitable discomfort of so bad a physical and mental strain.

All Clogged Up? Here's Quick Relief

A Simple Remedy to Correct Constipation Before It Becomes Chronic.

Very few people go through life without some time or other being troubled with constipation. Thousands injure themselves by the use of strong cathartics, salts, mineral waters, pills and similar things. They have temporary value in some cases, it is true, but the good effect is soon lost, and the more one takes of them the less effective they become.

A physic or purgative is seldom necessary, and much better and more permanent results can be obtained by using a scientific remedy like Dr. Caldwell's Syrup Pepsin. It does not hide behind a high-sounding name, but is what it is represented to be, a mild laxative medicine. It is so mild that thousands of mothers give it to tiny infants, and yet it is so compounded, and contains such definite ingredients that it will have equally good effect when used by a person suffering from the worst chronic constipation. In fact, among the greatest endorers of Syrup Pepsin are elderly people who have suffered for years and found nothing to benefit them until they took Syrup Pepsin.

It is a fact that millions of families have Dr. Caldwell's Syrup Pepsin constantly in the house, homes like those of Mr. H. W. Fenstermaker, Siegfried, Pa. He says he has had wonderful results from the use of Dr. Caldwell's Syrup Pepsin, that, in fact, he has never found a remedy so good, and he is glad to recommend it. The special value of

MR. H. W. FENSTERMAKER

this grand laxative tonic is that it is suited to the needs of every member of the family. It is pleasant-tasting, mild and non-gripping. Unlike harsh physics, it works gradually and in a very brief time the stomach and bowel muscles are trained to do their work naturally again, when all medicines can be dispensed with.

You can obtain a bottle at any drug store for fifty cents or one dollar. The latter size is usually bought by families who already know its value. Results are always guaranteed or money will be refunded.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 419 Washington street, Monticello, Ill. A postal card with your name and address on it will do.—Adv.

MONTPELIER

Frank M. Moulton of this city and Clara E. Brown of Bloomington, N. Y., were married Wednesday evening by Rev. Homer A. Flint.

When pillows, etc., in a chair beside the sitting room stove caught fire yesterday morning, Minnie Safford, who lives on Berlin street, was somewhat burned in removing the chair to the kitchen, her clothing catching fire. Someone called the fire department, but when they arrived there was nothing to do but throw the chair out of doors. Miss Safford's back was burned and she needed the services of a physician to dress the burns.

Managing a Town's Affairs.

In the city manager plan lies the best solution which we have yet discovered for our vexed problem of municipal government. It is logical; it works to perfection in Germany; it is directed precisely at some of the most flagrant evils prevalent in the administration of our cities; it is eminently sensible. And the professional politicians do not like it.

But how is it suited to the government of suburban towns and cities? Most particularly well. One great difficulty which the suburban community has to meet is that of finding men of the right caliber who can devote enough time and energy to the service of the community. But it would be easy to find men of high ideals and ample ability who could give all the time and energy necessary to determine the policies if the administrative work were done by an expert who was devoting all his time to it. Nowadays, much of the time of

our town council is taken up with petty details which ought never to be a matter of debate. I have heard a town council solemnly debate the question whether the fire house should have half a dozen new brooms.

It has been said that battles have been won by poor generals, but that no battle was ever won by a debating society. The aphorism is no less applicable to the administration of a town's affairs. Roads ought not to be paved, nor water works managed, nor streets cleaned, nor fires prevented, by a debating society.—Suburban Life—The Countryside Magazine for February.

First National of New York Applies.

Washington, Jan. 30.—The first National bank of New York yesterday made formal application for membership in the federal reserve banking system. The first national is one of the largest banking institutions in the country and is generally known as George F. Baker's bank.

OLD-TIME COLD CURE—DRINK TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a tea-cup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore, harmless.—Adv.
